

PROJECT INFORMATION

01. Project title : (Please give your project a name, distinct from the name of your organization,not more than 60 characters including spaces.)

Title

02. Are you applying to take your innovation to another low income country?

Yes

No

Both India and another low income country

2a. Please specify the low income country (countries) that you are looking to take your innovation to applicable (only for Agriculture, Health, Disability and WASH Sectors):

Ctrl + Select to choose multiple languages

Afghanistan

Bangladesh

Benin

Burkina Faso

Burundi

Cambodia

Central African Republic

Chad

03. Sector of the project

Health

3a. Under which Sub-Sector does the Innovation fall:

Select

04. Complete the logframe table for the project you plan to execute with Millennium Alliance funding. A logical framework (or a log frame) is a project tool which assists in the planning, implementation, and evaluation of an intervention. It identifies key elements of a program and shows how a project makes its impact. Please refer to the example in the application guidelines prior to completing this question.

4a. Need : What is the problem this project addresses? (Maximum of 200 words)

FINANCIAL SUSTAINABILITY

01. How do you plan to sustain this project beyond the MA grant? Mention if the sustainability plan for the project includes grants, generated revenue (from sales or other pay-based models), investment (debt or equity), CSR funding, government partnerships, or other funding sources. Please indicate how much you expect each of these sources to contribute to funding the project in full (for example - 40% from grants, 60% from generated revenue). *Maximum of 200 words*

$\frac{1}{x}$

$\frac{\partial}{\partial x}$

03. Please list three to five impact indicators that will be used by you to track the progress of the project. Indicators are used to measure outcomes of your activities. Indicators evaluate the success of activities that the project engages in. Please provide indicators which correspond to the goals of your project. (Maximum of 150 words)

[illegible]

PROJECT EXECUTION

01. In the activity plan below, break down your project into the 5-8 most essential activities for executing the project. Describe each activity, indicate the length in months, and indicate the target for the output of each. Please be detailed in the description. (For instance, "visit target demographic and raise awareness about available health services" is a more complete response for an activity than "outreach." Activities should be listed in chronological order.)

FUNDING PROJECT COST

1. Please upload your project budget, using the provided format. If you are requesting less than 100% of the total project cost from MA, please indicate which of the spending heads will be covered by the MA grant and which would be covered by alternative funding sources. Please do not modify the template or submit a budget in your own format. Please note that your funding request may not be granted in full. *Please download sample sheet fill it and then upload*

In case you need to submit additional info related to the budget, please add another worksheet to the same excel file and provide a detailed breakup. Please note that it is mandatory to fill the predefined format in sheet one of the excel sheet even if you are adding another sheet with detailed budget.
